

## Rubric for Praespero Mini-Grant selection

	<b>3</b>	<b>2</b>	<b>1</b>
<b>Clarity</b>	Sequence of project is clear, with action steps that follow a logical pattern, and are clearly thought out; end goal is clearly envisioned	Sequence makes sense, with action steps; action steps may or may not be in logical order; lack of detail for end goal	Little logic to steps as written; end goal is unclear
<b>Creativity</b>	Project exudes personal innovation and ideas; project is obviously meaningful to applicant and is borne of curiosity; some risk is evident that this project will be challenging and that they can persist	Project uses ideas that may be new, or parts of the idea may be new; unclear why the project is so meaningful to applicant; may or may not be a challenging project	Project lacks personal touch and curiosity; applicant does not appear to be challenging themselves with this project
<b>Responsibility</b>	Project is clearly generated and designed to solve a problem or challenge that benefits other people, resources, or environment; applicant is able to identify alternatives and make well-reasoned decisions; multiple perspectives have been considered	Project addresses a challenge or problem within their community; applicant considers others' perspectives at a minimum in implementation and outcome	Project addresses a challenge or problem within their community; little to no evidence of considering other perspectives in project goals
